

# AUTO SHIELD

## Interior Single Use Vehicle Protection Kits

### PROTECTING

your family, employees and customers from the potential spread of germs, viruses and bacteria is more important than ever. Leaving vulnerable areas of your business unprotected can compromise health and financial well-being.

### EASY TO USE

Disposable one-car interior protection kit fits most all vehicles including cars, trucks, and RV's. All contents are grouped together in one easy-to-open bag that is disposed of after each use. LDPE (Low density polyethylene) creates a barrier to lessen the chances of contamination spread.

1 - Pullover seat cover  
made from white LDPE  
31.5" x 51"  
80 cm x 130 cm
