Light Speed™ System Details

The Light Speed™ System includes five different products to provide the ultimate repair finish in record time. The Light Speed™ products take your repair from beginning to end using: Light Speed™ Optex® Premium Body Filler, Light Speed™ LED Cure 440 Express, Light Speed™ LED Cure High Build Primer, Light Speed™ LED Cure Lamp, and Light Speed™ LED Cure Lamp Stand.

Light Speed™ Optex® Premium Body Filler

Light Speed™ Optex® Premium Body Filler is the world's best sanding dual cure filler offering unparalleled sanding qualities as a result of the Evercoat patented EcoResin™ technology. As an important product in the Light Speed system, the body filler can be cured on demand in 3 minutes with the Light Speed LED lamp. The filler also features patent pending color-change technology in which the body filler optically transitions from pink to a light gray-green when it's ready to sand.

Light Speed™ 440 Express

Light Speed™ LED Cure 440 Express is a fast fix for micro-pinholes that are hard to identify prior to primer application. This patent pending technology is a high-solids polyester that is easy to apply and cures on application of Light Speed LED lamp. Testing has shown that when used properly, up to 90% of all rework created by micro-pinholes are eliminated.

Light Speed™ LED Curing Light Stand

The Light Speed™ LED Curing Lamp Stand holds the Light Speed LED curing lamp in place to ensure a proper cure of your repair. This stand eliminates the need for manual holding of the lamp to allow you to work on other aspects of the repair. It's small footprint and easy set up offers a quick and easy curing process.
