

EVERCOAT® Z-GRIP® LUXE

Superior Lightweight Filler

Superior
Sanding

Superior Spreadability
& Smooth Finish

Superior Pinhole
Resistance

Superior Adhesion
to Most Substrates
(including Galvanized Steel)

DESCRIPTION

Z-Grip Luxe is a golden, creamy, and super spreadable filler that moves with low resistance, bringing control to the application. This advanced formula filler offers superior performance and leaves a smooth finish.

FEATURES

Superior Spreadability and Smooth Finish

Z-Grip Luxe is a unique formula is crafted to maximize creaminess. The filler has a naturally smooth appearance that carries through to the finish. It's crafted to minimize heavy texture, and in turn, reduce sanding time. Performance is optimal with 80-120 grit sandpapers.

Superior Pinhole Resistance

In addition to the smooth finish, Z-Grip Luxe stays tack-free, produces a virtually pinhole free surface, and keeps sandpaper from clogging, making the finish process faster and cleaner.

Superior Adhesion to Most Substrates

Z-Grip Luxe has maximum adhesion that is designed to prevent featheredge pullback. This filler adheres to cold rolled steel, galvanized steel, aluminum, fiberglass, and SMC. This product is a part of the METALWORKS® system.
