MIRKA

Mirka® Trolleys and Workstations

Engineered for ergonomics and workflow efficiency

DEXOS® 1230 Workstation

Solution Trolley II

Modular Trolley

Dedicated to the finish.

Keep your working area clean and your workflow smooth with Mirka's tool trolleys.

Our workstations and trolleys are designed for dust-free sanding and seamless integration with Mirka tools, accessories and dust extractors. These are comprehensive solutions for surface treatment professionals who value ergonomic working practices and time-saving benefits.

DEXOS® 1230 Workstation – Compact

The smallest and most compact setup

Turn your DEXOS 1230 into a compact surface finishing station for your body shop. The DEXOS 1230 Workstation offers smart storage, hooks for cables and hoses and a portable work surface. It attaches directly to your DEXOS 1230 dust extractor without blocking access to the dust bag. The workstation can be expanded with Modular Trolley hooks and shelves for additional tool and abrasive storage.

Mirka® Solution Trolley II – Standard

A pre-defined modular setup

Positioned between the premium Modular Trolley range and the compact DEXOS 1230 Workstation, the Solution Trolley II combines the simplicity of a pre-configured setup with desirable customisability. New features such as braked castor wheels, a large tool drawer and a front-accessible layout ensure stable mobility in busy workshop environments. The trolley can be customised with various accessories.

Mirka® Modular Trolley – Premium

A fully configurable system with six models from Basic to Premium+

The Modular Trolley can be ordered as a simplified basic version, with each equipment module added one by one to upgrade it. In other words, you can equip the Mirka Modular Trolley to fully cater to your specific line of work. In addition to custom configurations, different Trolley Kits are also available in six versions.

'Transform your dust extractor, sander and accessories into a unified, mobile sanding solution that adds serious power to your workflow.'

Workstation for Mirka® DEXOS 1230

Smart Hose & Cable Management

Keep 4, 6 or 10 m hoses (1) and electrical cables (2) organised, tangle-free, and safe.

Tool Wall With Hooks

Keeps tools and accessories organised and within easy reach.

Tool Holder

For DEROS® II, DEOS® II, DEROS® RS, POLAROS® and also for older DEOS and DEROS tools (DEROS RS and POLAROS holders available separately).

Shelves for Abrasives & Storage

Two sturdy shelves hold up to six boxes of 150 mm discs and provide a convenient surface for placing tools and accessories during work.

Direct Fit

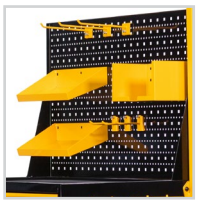

Mounts directly onto the DEXOS 1230 container.

Dust Bag Access

Quick replacement without removing the workstation.

Modular System

Compatible with Modular Trolley hooks and shelves.

Compact & Space-Saving

Combines extractor + workstation in one efficient unit.

Durable Construction

Built for professional use with robust, workshop-ready materials.

Workstation for Mirka® DEXOS 1230

Solution Trolley II Parts

Push Handle & Spray Can Holder

Right by the push handle, there's a convenient storage space for your spray cans.

Cable Hook

Use the built-in cable hook to keep the floor clean and free from tangled cables.

Drawer With Sliding Rails

Large drawer for tool and accessory storage.

Lockable Cabinet

The cabinet features an internal shelf and can be locked using a draw bolt locking mechanism that simultaneously secures the drawer.

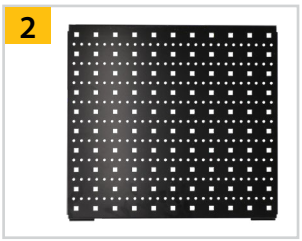

Designed for the automotive and collision repair industry, the **Solution Trolley II** provides improved ergonomics for tradespeople who need their tools and accessories close at hand, whether they're levelling primer or polishing the perfect finish.

MIRKA
Solution Trolley

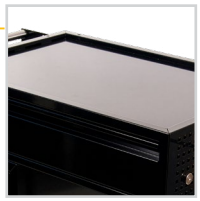

Table Top Workspace

The sturdy table top, with 40 kg load capacity, gives you a convenient workspace for storing sanders, primers, abrasives and more.

Rack for Power Tool or Hose

Rack for storing power tool or dust extractor hose.

Bottom Plate

Bottom plate for dust extractor.

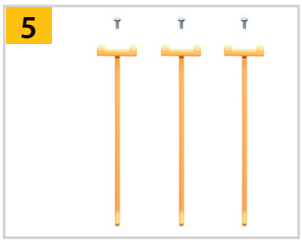

Braked Wheels

Robust 125 mm castor wheels with brakes provide secure positioning and smooth movement across body shop floors and floor gratings.

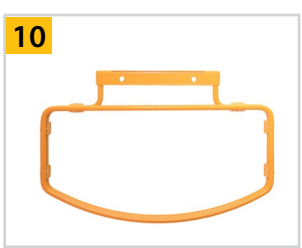

Modular Trolley Parts

The Mirka Modular Trolley is a portable workbench designed to evolve alongside your workflow, simplifying and optimising daily tasks in any body shop.

One of the key features of the Modular Trolley line is its modularity, allowing you to customise it according to your needs. You can choose a basic setup or opt for a more comprehensive configuration, as each module can be added individually.

Abrasive Storage Trays

For vertical placement of full packs. Angled holders improve position for access. Magnetic attachment makes fitting and repositioning easy.

Large Tool Drawer

Keep your tools safe and secure in this tool drawer.

Personal Drawer

Smaller, readily accessible and lockable drawer for personal items.

Waste Bag and Cable Holder

Waste bag holder for easy and direct waste disposal. Behind the waste bag you'll also find a cable holder.

Locking Device

Drawers can be locked via a push-rod system. The pushrod system locks all the drawers simultaneously.

Two Abrasive/Tool Drawers

The perfect space for Abrasive packages or smaller tools.

Deeper Drawer

A deeper drawer that suits large Polarshine bottles, for example.

Lockable Swivelling Castors

Excellent mobility even over grates. All four swivelling castors can be locked for secure positioning and to prevent the cart from rolling away.

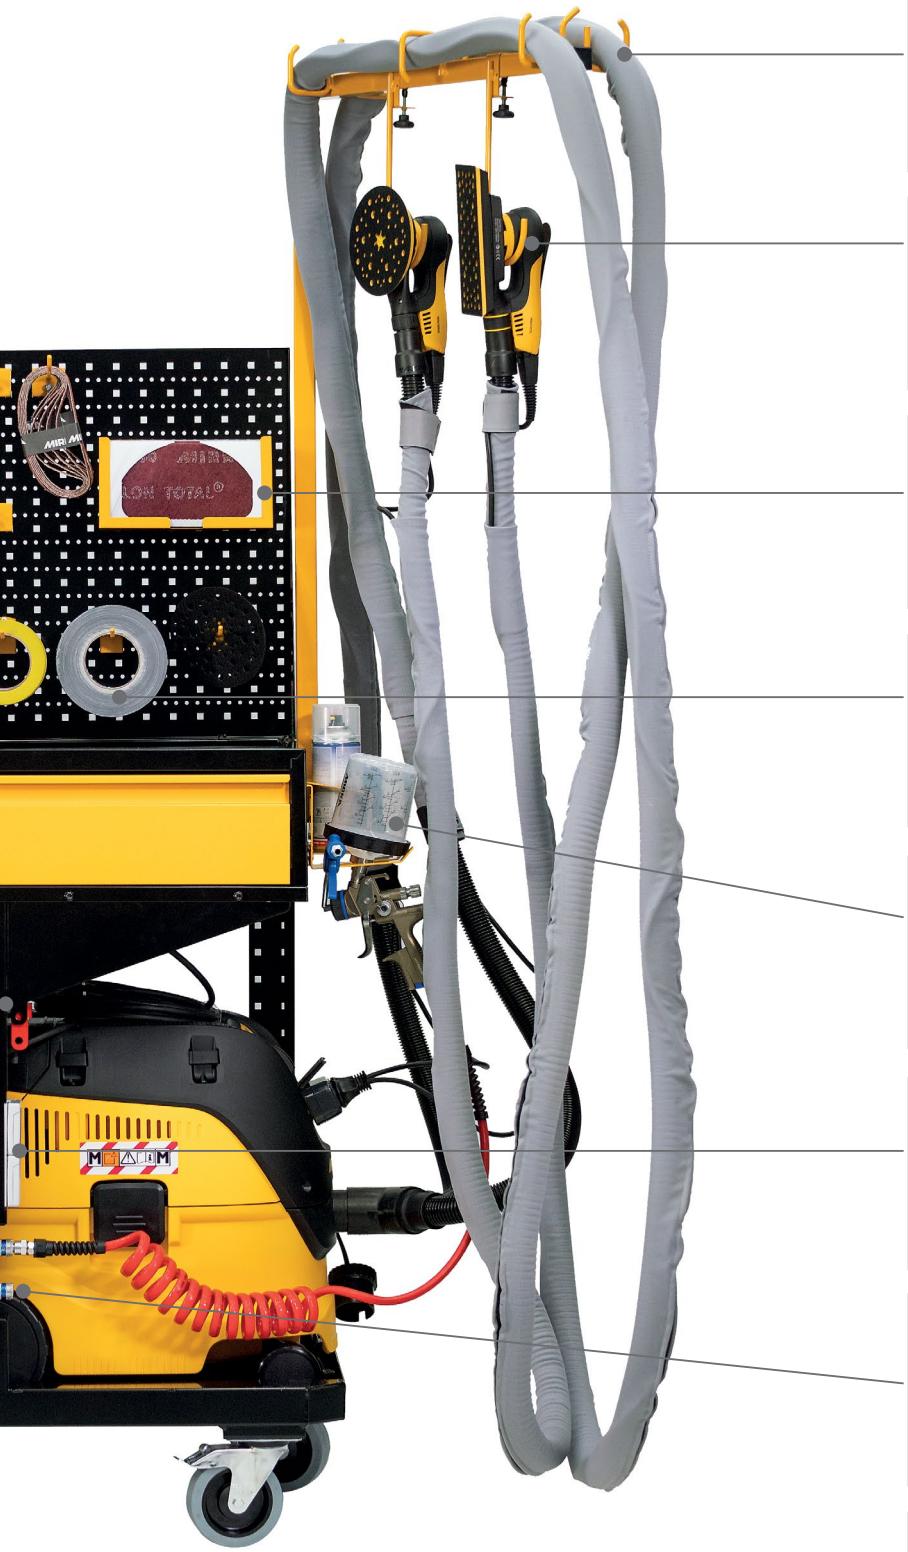

Additionally, various Modular Trolley Kits are available in six versions, each offering different combinations of features. These kits range from the Basic model to the fully equipped Premium+ version.

MIRKA

Modular Trolley

Hose Arm With Holders

The practical hose holder picks up hoses from the floor, making work safer. The hose arm is developed to fit two 27 mm dust hoses and one 20 mm hose.

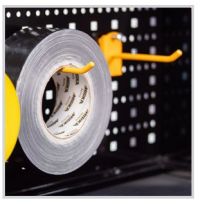

Machine Holders

Secure and safe storage and resting position for 2–3 sanders.

Mirlon Total Tray

A Mirlon Total holder for making pads easily available.

Hooks For Gadgets

Place tapes or other equipment on the hooks.

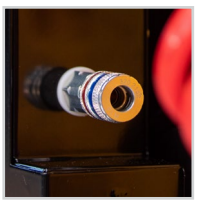

Spraygun & Aerosol Can Holders

Holders for the spraygun and two aerosol cans.

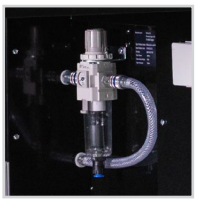

Three Power Socket Units

Provides power for multiple devices directly at the workplace.
There is a separate power socket for the Dust Extractor on the other side of the trolley.

Power/Compressed Air Connection

Direct power and compressed air supply on the rear of the workshop cart, complete with flexible cable (abrasion-proof, excellent tensile strength and cut resistance, resistant to oils, greases, petrol and water).

Air Filter Regulator

Pressure reducer with water separator ensures compressed air is dry, clean and delivered at optimum pressure.

Find the Right Trolley for Your Body Shop

Mirka offers everything from compact and versatile basic models to fully-fledged tool trolleys with dedicated accessories for the various stages of work in a collision repair workshop.

Explore and compare the different models and customisation options below and find the solution best suited for your body shop.
